

## IAM Board Election 2022

### Bio

My Name is Sven Wetzel, I am 40 years old and live in South Germany.

I help the IAM in Software questions since 2018.

And I work as IT Support Engineer .

So my task at work is to solve problems and get people an advice how they can handle a situation with their equipment.

### Motivation and why I apply

I was curious, and in my local library I found books about such thing as memory training. And look with this recipes and habits I can not only control how I could learn things better, but also how I can have more time for learning more.

I want to be part of your team, because the mind sport and everything with the idea of learning in a better way is fascinating me for so long.

And to get a part of it, can be a good way to find ways how it can be accepted in a wider way. Also I learn trough this possibility people and their needs.

Thank you for any vote and also being part of the memory sport family.
