

Bio Letter for the election to a IAM International Board member 2020

I am Sven Wetzel, living in South Germany, 42 years old and work as an IT Support Engineer. So my task at work is to solve problems and get people an advice how they can handle a situation with their equipment.

Since childhood I am fascinated from what a memory could do and if I am able to do it.

Motivation Letter for the election to a IAM International Board member 2024

We live in a crazy world in that many grave after getting a better life.

One possibility is to get the world more memorized.

Not only to have a digital copy in your computer, but also remember it yourself.

Also I dream that memory sport is getting more known and accepted as a sport and that everyone could learn it.
